

VISIT METRO EARLY COLLEGE (3 options)

About Metro Early College

Established in 2006, Metro Early College High School was born out of the desire of both the Ohio State University and Battelle Memorial Institute to create a “small” STEM (science, technology, engineering, mathematics) school with a “big footprint.” Metro is the platform school for The Ohio STEM Learning Network (OSLN), and was the first higher education (The Ohio State University), business (Battelle Memorial Institute), and K-12 partnership for STEM learning in Ohio. Metro is a non-selective admission school whose average graduate completes high school with roughly 30 collegiate semester hours and \$50,000 in total scholarship offers.

Each year, Metro has more than 40 groups from our state, national, and international communities visit to learn more about what we do. Please see the list below which contains options for the differential levels of engagement we offer for visiting groups:

1. Student-Led Tour

A 45 minute, student-led tour is always free for first time visitors and guests not collecting any proceeds by way of the visit (e.g., a consulting fee, etc.)

2. Tour and Q&A

In this roughly 2-hour visit, guests are given a student-led tour of the school and then meet with a member of school leadership to have questions answered. The Q&A is customized based on your group’s needs and questions. This tour is \$500 per group. (Groups can be up to 15 participants)

3. Custom Professional Development

Customized professional development plans are also available. This could include specific professional development sessions, and/or ongoing consulting with a specialized focus. The cost of this experience varies depending on the request.
